THIS, THAT AND THE OTHER

To Our Patrons:

We have a large number on our books who are behind with their subscription. Knowing this to be a dull year we have not crowded them but we must balance up our books this month and would like to have these amounts paid. They are only small accounts but to us they amount to hundreds of dollars. We will send out statements and would like to have those owing prepare to settle at once.

LEHI PUBLISHING CO.

Six couple went over to Beck's Springs on Tuesday night.

Some of the farmers are ready to sign beet contracts for next year.

Mr. Scowcroft of Ogden was in the city on Monday visiting some of our business men.

The funeral of the daughter of Mr. Bennett was held last Sunday afternoon.

The registration list is now for public inspection in the Post Office. See if your name is on.

We understand that Will Wing is at present in Chicago taking in the sights at the White City.

The officers of the Primary Association will enter in the members of that organization at Garff's Hall on Saturday.

The members of Lehi Lodge are preparing a public entertainment to commemorate the 5th anniversary of their order. It will be held in the lodge room on Friday evening Oct. 27.

George Austin visited the southern part of the County on Monday. Some beets had come in from that district that were not properly topped and he went down to have the work done satisfactory.

Mr. Abo Gudmundsen has received word that a patent has been granted for his automatic lamp lighter. He is now working on a motor to generate power by the action of the waves. His patent without a balance wheel is a double novelty.

Ole Ellingson and W. L. Webb went to Provo Monday night to attend a social given by Garden City Lodge of the A. O. U. W. Grand Recorder Thorbin of Ogden was present and gave an interesting address on the good of the order.

Mrs. Erickson, the invalid wife of Marcus Erickson, passed from this world of trouble last Sunday. She has been an invalid for a long time and no doubt death was a happy release to her. The funeral was held on Monday.

The time required to cross the Atlantic Ocean is being shortened every year and the lowest is not yet. The new Cunard steamer Lucania has made the lowest record yet. On her second westward journey she covered the distance in 5 days 13 hours and 25 minutes.

One of the largest audiences ever seen here gathered at Garff's Hall on Saturday night to listen to Frank J. Cannon. The band and Provo drum corps were out in the evening and soon had the town in motion towards the hall which was soon packed. After music by the band and a piece from the drum corps, Chairman Wines introduced F. J. Cannon who addressed the assemblage for some over an hour expounding the principles of republicanism giving special attention to their system of county which is needed by the young industries of the west. He also took up portion of the democratic county platform severely criticizing it. John E. Booth was the next speaker who had his usual amount of campaign stories to tell bringing forth much of laughter from the audience. He explained the bounty and gave a laughable description of Rawlins' little farce at Washington.

Do Not Wait.

Too long. The Great World's Fair will be closed in a few weeks. The traveling public are fully alive to the fact that the Chicago, Union Pacific & North-Western Line offers the very best accommodations to the public from and to Chicago, Omaha and intermediates, not only during the World's Fair, but all the year round. See your nearest Union Pacific

Dr. Price's Cream Baking Powder Forty Years the Standard.

George Kirkham came down from Salt Lake on Friday returning on Saturday.

The teachers went to Provo on Saturday to attend the teachers' convention.

The Democratic party intend having a rally in the near future.

Mrs. Kate Allred is kept pretty busy now harvesting Utah's best crop. Success to her!

A three-year-old daughter of Augustus Bennett died last Saturday of Malarial Fever.

Mr. John Worlton, the road tax man, has a number of men and teams improving the streets.

Eight and a half pounds of female arrived at the home Edison Whipple on Monday. All well.

Mr. George Austin has caught the spirit of the times and moved his stable and corral back in his lot.

Mr. Whitney, Secretary of the sugar factory was in Lehi on Tuesday attending to the business of his office.

The House has passed a bill exempting prospectors from working the \$100 assessment per year on mining claims.

Dr. Merrinew will move into his new building next Saturday Oct. 21st where he will be pleased to receive his patrons.

This week a great storm swept over the lake region causing much damage to shipping and sending many people to a watery grave.

The enterprising people of the north branch have located a place to build a meeting house and intend to commence operations this fall.

The new desks for the school house have arrived and will be put in right away preparatory to opening another department there.

Mr. John E. Ross has been afflicted with rheumatism for some time past, says he will be able to take his place in the school room next Monday.

Last Sunday the factory turned out 733 sacks of sugar in 24 hours. This points to the fact, that the hands are becoming skilled in their work.

On Saturday the Sugar Co. sent out checks to the cities in south end of the county for part payment of beets delivered. Spanish Fork received the lion's share.

Mr. I. D. Wines left Lehi on Sunday evening by the R. G. W. for his old home in Ruby Nev. He will be gone about 10 days.

The Republicans of the Seventh district nominated Mr. Ira D. Wines of Lehi for Representative to the Legislature assembly. The Democrats of the same district nominated Mr. Rileout of Draper Salt Lake Co.

Mr. Christensen, who has spent fifteen years among the Indians of southern Utah, delivered a very interesting discourse on the life and customs of the red men in the North School House on Sunday evening.

Mr. Sam Wines was waiting at Lehi Junction with a horse and cart for his father to arrive who had gone to Tintic. For some cause the horse got frightened and ran away. Luckily there was no harm done.

The Kirkham Orchestra gave another ball last Friday evening at Garff's Hall which was quite well attended. The music was better than before and gave better satisfaction. There were a number present from the neighboring towns. They give another one next Friday night.

George Smith is carrying a sprained wrist caused by a runaway on Tuesday evening. He was driving down the street in a cart when he struck a post. The concussion threw him out and pulled the shafts from the cart. The horse ran away with the shafts scaring a number of people in its mad race but hurting no one.

On Saturday 1000 tons of beets were delivered at the factory; 700 by the railroads and 300 by teams. Among them were some of the finest beets we have seen. There is one thing noticeable that the beets which come in on cars have with them considerable dirt. The farmers should be more careful in gathering the beets and not get so much dirt. It makes it more disagreeable for the company as the beets have to be screened and the dirt taken away.

For some time considerable prospecting has been done in the hills north of the city and a number of claims have been located. A company including the Howe Bros. have been working the old "paint hole" and have sunk a shaft there some sixteen feet. The first shaft taken from the top went a fraction over \$1. in gold and the last one shows a decided improvement being a fraction over \$13. in gold with a trace of silver. It is found in decomposed quartz through which there runs a number of rich fissure veins which however are small. The attention of some Salt Lake parties have been called to this property and they signify a willingness to erect a mill here. They were down looking over the ground last week and were well pleased with what they saw. We will watch their actions with interest as we are anxious to see the mill.

It is thought that the bill for the repeal of the Federal election laws, which was passed by the House this week, will be introduced by the Senate before it passes that body. Many Democrats are voting for it in the hope of considering it utterly too sweeping and will be pleased to see it amended.

The Republicans of the sixth council district met in convention at Pleasant Grove yesterday. The appointment of the usual committee was made at the morning session. In the afternoon J. T. Thorpe was made chairman. The election was held by mail and the result was by acclamation a city was chosen in the evening.

There is a movement on foot to hold a Territorial sugar convention in Lehi about the first of next month. Rates have already been secured on the railroads and a large gathering may be expected. Mr. Gillispie, of Salt Lake, is one of the principal promoters of this move and is very anxious to have it for he thinks it will be a fine thing for the sugar industry and a good advertisement for Lehi. We will no doubt have more to say on this matter next week.

Bread Made with Soap.

From a communication read to the Association of Belgian Chemists, it seems that Continental bakers are in the habit of mixing soap with their dough to make their bread and pastry nice and light. The quantity of soap used varies greatly. In fancy articles, like waffles and fritters, it is much larger than in bread. The soap is dissolved in a little water; to this is added some oil, and the mixture, after being well whipped, is added to the flour. The crumb of the bread manufactured by this process is said to be lighter and more spongy than that made in the ordinary way.—Scientific American.

A Three-year-old Heroine.

About two weeks ago little Bessie Culpman was brought to the Union Pacific Hospital in consequence of having her right leg cut off by a Union Pacific freight engine in American Fork where the child's parents lived. The accident was a shocking one, but never did a child, or adult, endure it with so sweet fortitude as this little queen bee. So difficult has the wound proved that, no less than three operations have been performed on the injured member. Without complaint, without tears indeed with smiles, has the child passed through this terrible ordeal. She laughs and chats about her dismembered limb, having shown only complacency and sweetness. In a short time she will be so far convalescent as to be taken back to her own sunny home. She is a bright beautiful child, a perfect little blossom, such as bloom into the flower an ideal womanhood. May little Bessie because of the accident that has befallen her, find no stones in the path of life over which to stumble, but indeed, may the journey lead through pleasant places all her life long.—Sun.

Will Put up a Mill.

Messrs. Robby, Robertson and others who recently opened up some promising claims about two miles north of Lehi, are so well pleased with the prospect that they are arranging to operate on an extensive scale, and will at once put up a mill.—Herald.

Most Perfect Made.

Factory Notes.

Just one month ago to-day the Utah Sugar Co. commenced its third season's run this year under the superintendency of Mr. C. A. Granger. This morning at 7 A. M. 8,349 tons of beets had been cut and 11,000 pounds of sugar had been made. For the twenty-four hours ending this morning, the factory consumed 352 tons of beets, showing how smoothly things are working. Saturday was a model day. One thousand tons of beets were received from the farmers, 831 tons were run through and 733 bags of sugar were sacked.

They now have an army of workers on their payroll numbering two hundred and seven.

It is so soon that the rate they are now coming it will be utterly impossible for the company to take care of them. They are coming in at the rate of nearly one hundred tons per day, one hundred rail loads besides those by wagon having come in during the past three days. In about two days more all the shafts will be full and the farmers will have to cease digging for a few days.

"Consider Chamberlain's Cough Remedy a specific for coughs. It is very pleasant to take, which is one of the most important requisites for a cough remedy intended for use among children. I have known of cases of cough where I knew the child was in danger, and by the use of Chamberlain's Cough Remedy," J. J. LaGrange, druggist, Avon, Feb. 50 cent bottles for sale by People's Co-op.

A VISIT TO WATERLOO.

Old Women Still Living on the Spot Who Saw the Great Battle.

Jule Claretie, the administrator of the Comedie Francaise, paid a visit, shortly before his arrival in London, to the battlefield of Waterloo, says the London Daily News. It was seventy-eight years ago that the battle was fought, yet M. Claretie was still able to glean something in the locality from actual eye witnesses of that mighty historic event.

In the little wine-shop called the "Belle Alliance," where Wellington and Blucher, according to an inscription, met and saluted after their victory, he found two old women engaged in darning stockings. They appeared to take very little notice of strangers, but, on being questioned, the elder of the two declared that she was over ninety years of age.

"I was twelve years old," she said, "at the time of the battle. I was living with my parents at Plancenoit. We took refuge, all of us, on the Friday in the woods with the cattle. It was on Sunday they fought. It was just after my first communion, and on the day of St. Donat, a saint in whose honor there is a pilgrimage in the neighborhood. When all was over we went out and saw dead bodies everywhere. At night after the battle there was a storm. The bodies were swollen through the rain, and there were fears of a pestilence. They were buried in heaps, with dry branches between each layer, and then the branches were set fire to, or quicklime was poured in the trenches."

Have your teeth cleaned... Cleanliness is next to Godliness. Come in and I will take that time from your teeth that like decay. I will make you think that you have traded moths with some body that has a clean mouth. Dr. Merrinew.
